It is base cough to dama the whole instrument, if not stricken out. Never let it be recorded in the fundamental law of the free city of Chicago that its Mayor is compelled to be a blood hound to chase and seize, and return to bondage men and women, fleeing to a land of liberty. It is instigma upon the charge of the city to toler Mayor, than to degrade and disgrace it by making negre catching one of the functions

suspicious Haste.
re the people of Chicago had a glimpse at the provisions of the "new charter," the committee, or a portion of those who concected it, posted off with indecent haste to Springfield. to lobby it through the Legislature. Hold on, gentleman. Don't be in such a burry. Let natter as well as you. By the way, who appointed you a "committee" to concoct "amend-ments to the charter? Who are you, and what tre your names? Let us have light. City not be the foot balls of private conclaves, nor hould they be changed without due consulta-

tion with the people.

The Cook county delegation in the Legislature, it is hoped and expected, will not lend hemselves to any hasty action on the "new harter" until they have heard the opinion and desires of their constituents in Chicago.

Amendments to the City Charter. Charter " to-day-abbreviating some of the ess important sections. The chapters on Board of Public Works; Sidewalks; Surveying and Cleaning Streets; Grading, Curbing Paving and Phanking Streets; and the Collection of Tuxes and Assessments," occupy some sixty sections. The subjects are spun out to great length, but perhaps ample detail was needed. There is rather too much machiners

not only cumbrous but costly.

We cannot say much in favor of the scheme called the "Police Jourt." It is an unwieldy xpensive concern, and should be stricken or stead of the Board of Aldermen appointing two or more Justices of the Peace, and styling them "Police Court," it would be far better, and much more simple, to coufer upon the peo-ple the power to elect one Police Judge, and play-ground, and who defy the officers. They are indeed an unruly and turbulent set. The resolution was adopted; and the Senate adlet him discharge the duties of said office, for a reasonable salary. The people are as competent to choose a proper person for Police Judge as the Aldermen. There is too much eld Federalism in the new scheme for a Charter. The give the different committees time to examine and report the piles of bills which have accuconcocters of it have proceeded on the theory that the people were not fit to govern them-selves, and that the Mayor and Alderwen should

like this feature of the Charter very much. The abuses under the present system, are about not lead to the community. The would pocketed, as fees, is enormous. That the fee system the people can never know what amount of compensation their ser vants are getting; that matter is kept in profound darkness. But it is pretty well accertained that several of them are making, three ained that several of them are making three four times more than would be a liberal su

of the Peace, Clerk, Attorney, Collector, Treasurer, Commissioner of Public Works and Comptroller, shall be paid stated salaries; and that all fees, perquisites and emoluments whatever, shall be paid into the treasury and accounted honest citizen will, or should, give this provi-sion his approbation. Section 130 fixes the daries to be paid to the above offi-

sarrisus, the Council will adopt those rates, without doubt. We think the sum designated for the Comptroller is \$1,000 to \$1,200 too high; Clerk of Council of Twelve, one half too each of the others, would be well paid with \$500 per year; \$2,000 would command the ser-

\$8,100 too much—in other words the office should be abolished and its dufies vested with the Treasurer, where they properly belong. But the people must not suppose that the above list embraces all the salaries to be paid in the city. There is a fearfully long list not enumerated in the "amendments to the charter," to-wards which the foregoing are only an insigwhiteast fraction.

We have thus hastily glanced at the main features of the new charter. The greatest objection that presents itself is, that the machine-

The UnitedStates shap-of-war Portamouth bombarded a fort, and de-atroyed it. While the English upon the Vice-roy refusing satisfaction, burned forts and destroyed the official stations, &c. This ocjection that presents user at that me machine-ry is too large and expensive. There has been no effort on the part of the committee to sim-plify, to abelish supernumerary offices; to re-trench in many important particulars the wastedesiroyed the official stations, Re. 1 ma oc-curred on the 24th of Oct. The English Admi-ral brought forward the British squadron, con-sisting of the Calcutta, 44 guns; Sybil, 44; Nankin, 56; Comms, 14; steamer Niger, 14; ful extravagance which eats up the substance of the people. Nor has the "committee" sought to confer on the people more control over municipal affairs, but on the contrary, they have placed more piatronage and power in the hands of the Mayur and his council of "twelve." Still Nanam, 50; Commi, 13; steamer Nigor, 24; Execution, 14; Baracouta, 6; Horaet, 17; Corromandle, 3, and demanded that the Chinese Vicercy should spoiogise and salute the Eritish fiag. This the Vicercy refused to do, and thereupon the fire was opened upon all the forts except one, abreast of which were twenty-ty-three war junks, which a few days afterwards there are many valuable improvements upon the present charter, embraced in the "amend-ments."
